

Richard McReynolds

+44 7706 583964 | richard.mcreynolds@gmail.com | richardmcreynolds.com | Cardiff U.K.

Interdisciplinary artist working across sound, movement and digital technology. My practice centres on collaboration with dancers, choreographers and performers, designing responsive systems where sound, image and movement influence one another in real time. I have over ten years' experience composing, performing, producing events and leading workshops, with a strong interest in immersive performance, accessibility, and experimental working processes. Alongside my creative practice, I have taught and facilitated learning at undergraduate, postgraduate and community level
